

Spanish Content Request

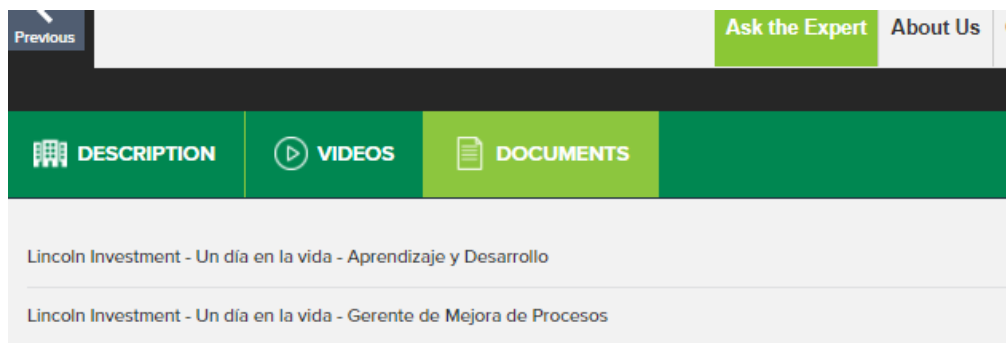

Spanish Toggle and Spanish Content

This year, JA is providing a toggle on the login page for students who prefer or require a Spanish-language version of the program. The toggle will allow Spanish-speaking students to login to an environment where the main directional labels and signage on our platform are in Spanish.

We are striving to continually make this an inclusive experience - your participation is appreciated!

'Please engage bi-lingual individuals to help create the following Spanish materials for your booth.'

- Translated booth description box
- Day in the Life Videos
- Day in the Life Documents
- Path to Employment Documents
- Job Opportunities, Internships, Scholarship Opportunities, etc.

Have questions or need help setting up your booth?
