

May 1st, 8th, and 15th, 2025
8:30am-3:00pm

Temple University
Howard Gittis
Student Center

JA Inspire: STEM serves as a catalyst for high school students, igniting their curiosity and encouraging exploration of diverse careers within STEM fields. Participation in this career-connected learning experience prepares students for the next step in planning for their future.

Through collaboration with partners spanning various STEM sectors, we aim to unlock students' potential, inspiring them to pursue pathways that align with their passions and aspirations.

This experience features:

- 2,000 student participants in grades 8-12, across three dates.
- Interactive, hands-on STEM expo booths.
- STEM volunteers sharing their world of work and education/training background.

Students will complete pre and post-work in addition to the culminating event as part of the overall program.

JA Inspire: STEM
